

HOW TO ATTEND ?

Applications: PhD students may apply at any step of their PhD, although the preference will be given to works near completion. Please send a curriculum vitae and a one-page summary of your research (objectives, methods, main results) to:

- philippe.hartemann@univ-lorraine.fr
- martin.exner@ukb.uni-bonn.de

Travel and accommodation: Students and senior scientists will be hosted at ADOSOM Windsor Residence, 16 avenue Windsor, 06406 Cannes, located near the train station, and at a walking distance of about 20 min from the Palais des Festivals. Accommodation, lunches and dinners will be paid by the sponsor. Extra-nights will be possible at students own charge (105 euros/night including meals). Students will travel to Cannes at their own charge.

Venue: The meetings will be held at the ADOSOM Residence, in English.

Format: Each student will be requested to present his research work with a PowerPoint presentation (maximum 10 slides, 15 minutes).

Seminar organized by :

In the wonderful environment of the French Riviera, with scientists from International Bodies and Universities, and under the sponsorship of SUEZ ENVIRONNEMENT, 20 PhD students are invited to present their work and discuss their results with senior academic and industrial researchers.

Topics covered include emerging waterborne pollutants and pathogens, epidemiology, microbiology, toxicology, analytical chemistry, risk assessment, water treatment, water hygiene and public health. Topics related with the sociological aspects of risk management are also welcome.

Aim of the Seminar

- Favour the dialogue between young and senior scientists in this fast moving scientific area
- Allow young researchers to discuss their results with internationally recognized scientists
- Favour the dialogue between all disciplines contributing to the advancement of water safety
- Favour the dialogue between academic scientists and the water industry
- Identify new research needs to further improve water safety

Water and Health Award

A 1500 € award will be attributed by SUEZ ENVIRONNEMENT to the student selected by the scientific committee as bringing the best contribution to the advancement of water safety.

Scientific Committee

- Pr Jamie BARTRAM University of North Carolina at Chapel Hill, USA
- Pr Martin EXNER University of Bonn, Germany
- Pr Philippe HARTEMANN University of Lorraine, France
- Pr Paul HUNTER University of East Anglia, UK
- Pr Michael WILHELM Ruhr University Bochum, Germany
- Dr Jean-François LORET SUEZ ENVIRONNEMENT, France
- Dr Daniel VILLESSOT Lyonnaise des Eaux, France

Publications

Participants will be offered to publish their work in a special issue of the International Journal of Hygiene and Environmental Health (5-year Impact Factor = 3.331)

Seventh "Water & Health" Seminar for PhD Students

June 29th - July 1st , 2015
Pre-Program

Monday 29th June 2015

14h00	Welcome address Seminar organization Introduction lecture	C. Campos, SUEZ ENVIRONNEMENT, Vice-President Research P. Hartemann Invited senior scientist
15h00	Microbiology Session Senior Lecture	
15h45	Break	
16h15	PhD students presentations Discussion	
18h00	End Dinner	

Tuesday 30th June 2015

09h00	Microbiology Session 2 2 Senior Lectures	
10h15	Break	
10h45	PhD Students presentations Discussion	
12h30	Lunch	
14h00	Chemistry – Toxicology Session 2 Senior lectures	
15h15	PhD Students presentations	
16h00	Break	
16h30	PhD Students presentations Discussion	
18h00	End Dinner	

Wednesday 1st July 2015

09h00	Emerging pollutants Session Senior lecture PhD Students presentations	
11h00	Break	
11h30	Selection of the best presentation	
	Attribution of the Water and Health Award	P.J. Derian, SUEZ ENVIRONNEMENT, Senior Vice-President Innovation and Business Performance
12h30	Lunch	
14h00	Meeting of the Scientific Committee: Lessons learned, orientations for 2016, possible collaborations	
16h00	End
